

From the desk of Ada Vandersteen GM

Welcome to the 2008 season at Granite Hills Golf. This season will see us fully operating in our new pro shop. We have had a busy spring installing our new POS system and on line tee time reservation system. Staff has been busy training to use the Fore System and are ready to register our eager spring golfers.

The course faired well over winter with minimal amounts of winter kill, and is now as advanced as it should be for the beginning of June. We ask that our golfers help to maintain the great condition of the golf course by using the 90 degree rule with the power carts. We request that the carts are kept on cart paths as much as possible.

We are excited to inform you that we now have 75 new power carts for our golfers use.

Our kitchen is now fully functional, offering great breakfasts, & luncheon specials. Our snack shack is open every weekend with the barbeque chef, grilling our burgers and smokies. Our bar is licensed and serving up all the refreshments a golfer requires.

Tournaments are booked and even with the cool May, Granite Hills has seen many golfers through the first tee. Our tournament facility is almost completed and will seat up to 180 guests.

It is a 2400sq. ft. fully enclosed building which will facilitate all your golf outings.

Barbeques can be fired up for groups to grill their steaks, while we supply the fixings.

Our facility will be licensed and can be rented out for outings of your choice.

As of now, the 18 holes have not been handicapped but will be in the near future.

We wish our golfers a great 2008 season. Our staff will do their utmost to ensure you a friendly welcome and a great round of golf.

Visit our website often to see our updates and to see” what’s new” at Granite Hills.
